

CABND 
DESIGN SELECTIONS - 2024

WELCOME TO CABN: CRAFTING YOUR SUSTAINABLE HAVEN

At CABN, we believe that every haven should embody a perfect balance of natural beauty and human comfort.

Our dedication to sustainability is evident in every facet of our design, especially in the materials we offer for cladding, flooring, and decking.

When you choose CABN, you're not just selecting a space; you're embracing a lifestyle that honours the environment without sacrificing quality or style.

At CABN, we know that every detail matters when creating your perfect haven. That's why we offer a range of materials for cladding, flooring, and decking, each chosen for its sustainability, durability, and aesthetic appeal.

Your CABN is more than just a space; it's a reflection of your commitment to living harmoniously with the environment.

CLADDING

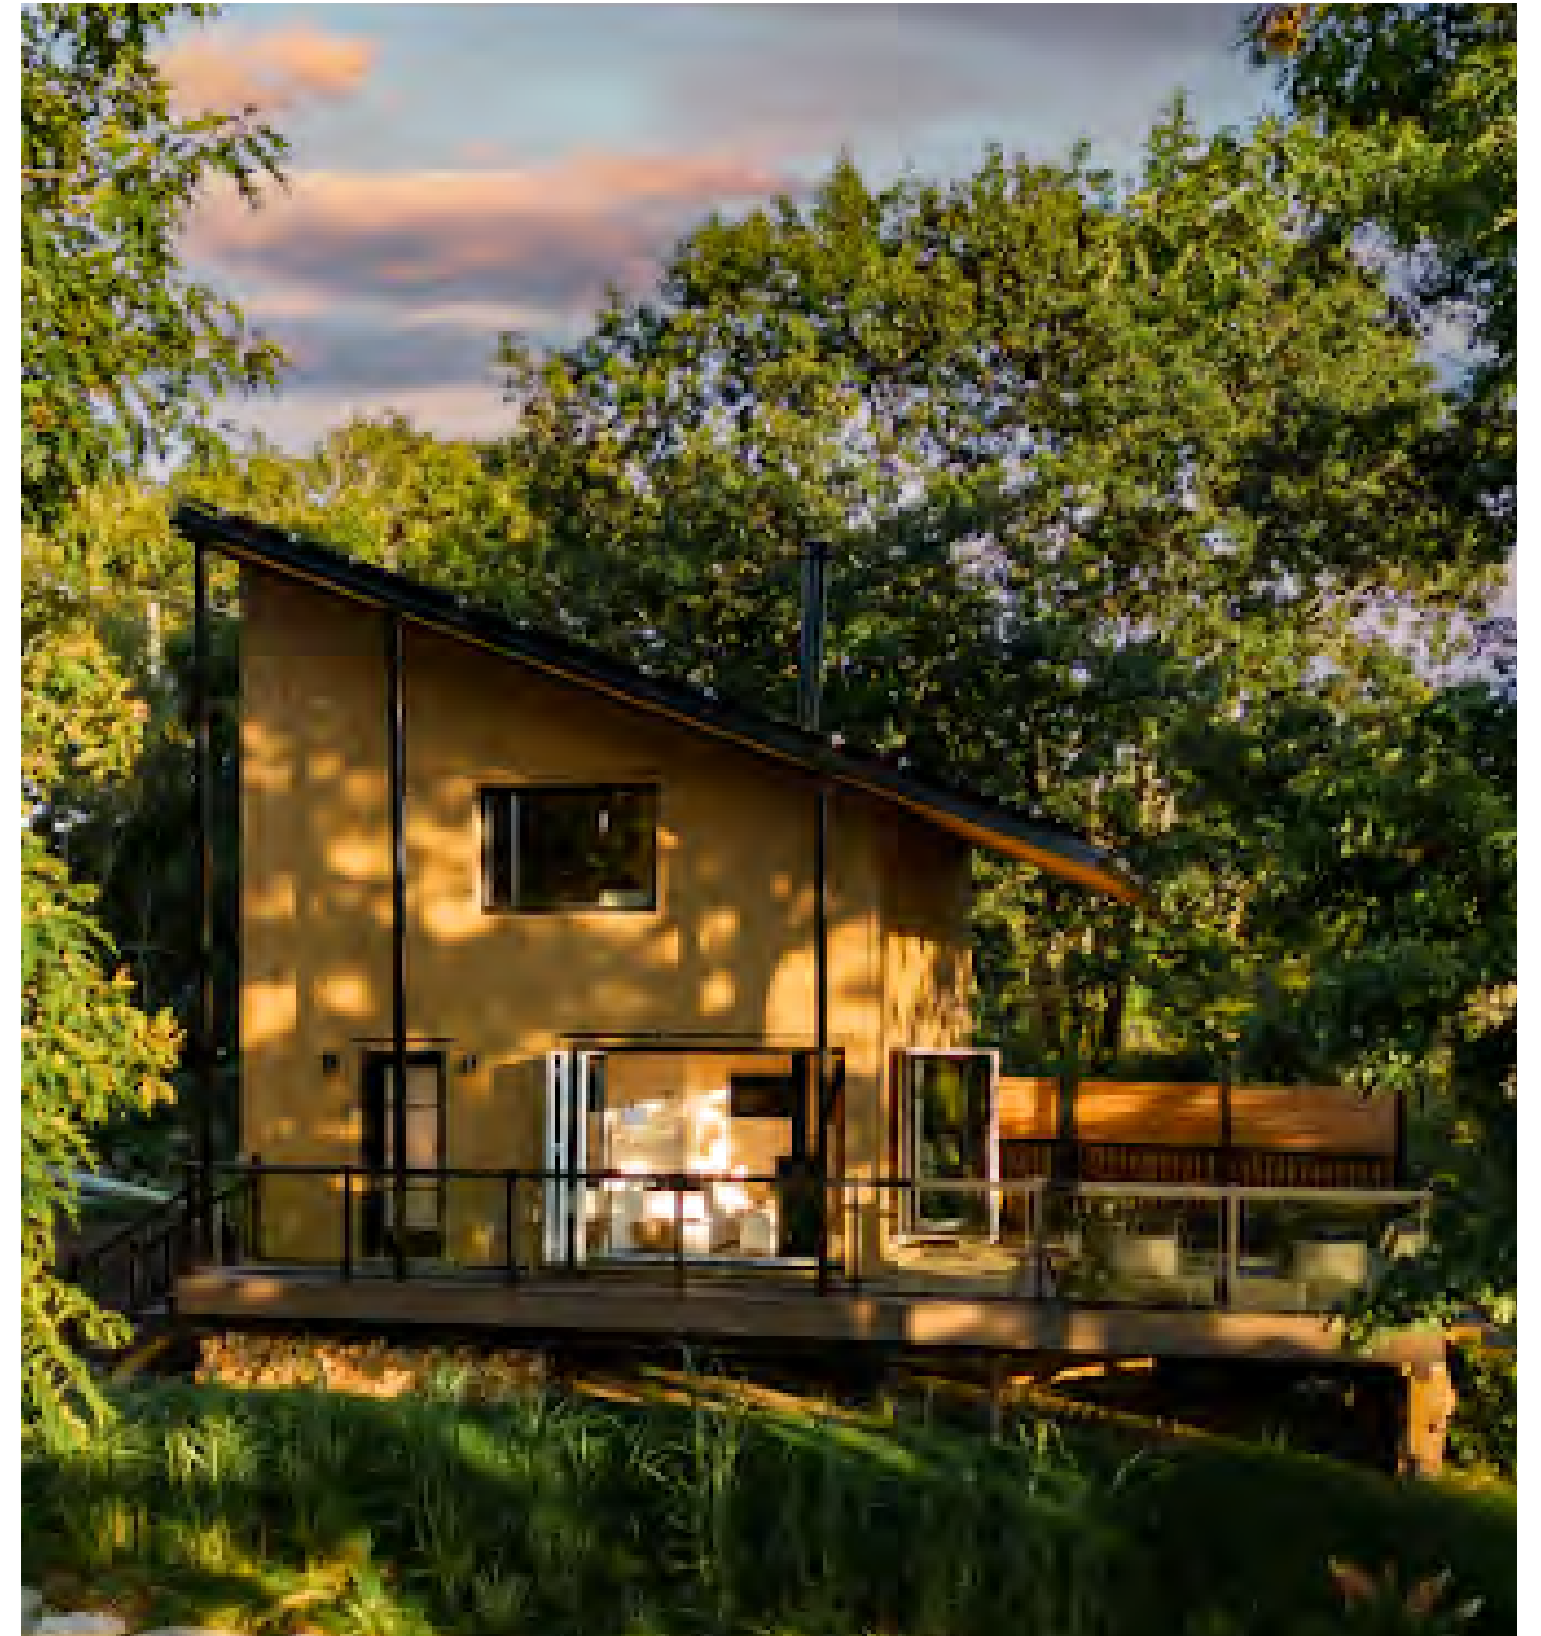

CLADDING: TIMELESS BEAUTY, ENDURING QUALITY

Our cladding options are meticulously selected to enhance the visual appeal of your CABN while withstanding the tests of time.

Whether you prefer the rustic allure of timber or the contemporary elegance of metal, each material is sourced with sustainability at its core.

From weathered wood to eco-conscious composite panels, your cladding choice not only defines your space's look but also contributes to its eco-friendly ethos.

DESIGN - EXTERIOR CLADDING, ALUMINUM

Aluminum siding allows a modern aesthetic and durable cladding finish for your home. Aluminum is 100% recyclable.

Aluminum improves thermal insulation which is followed by saving energy. It increases sound and thermal insulation without sacrificing any floor space by being added to the exterior of a building. It helps reducing noise disruption for the occupants and minimize the energy cost.

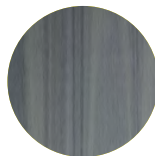

Our aluminum options have 2 styles and 2 colour options to fit your style and budget

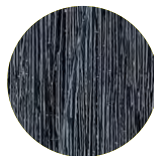

Traditional

Shiplap

Light Grey

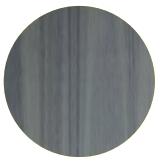

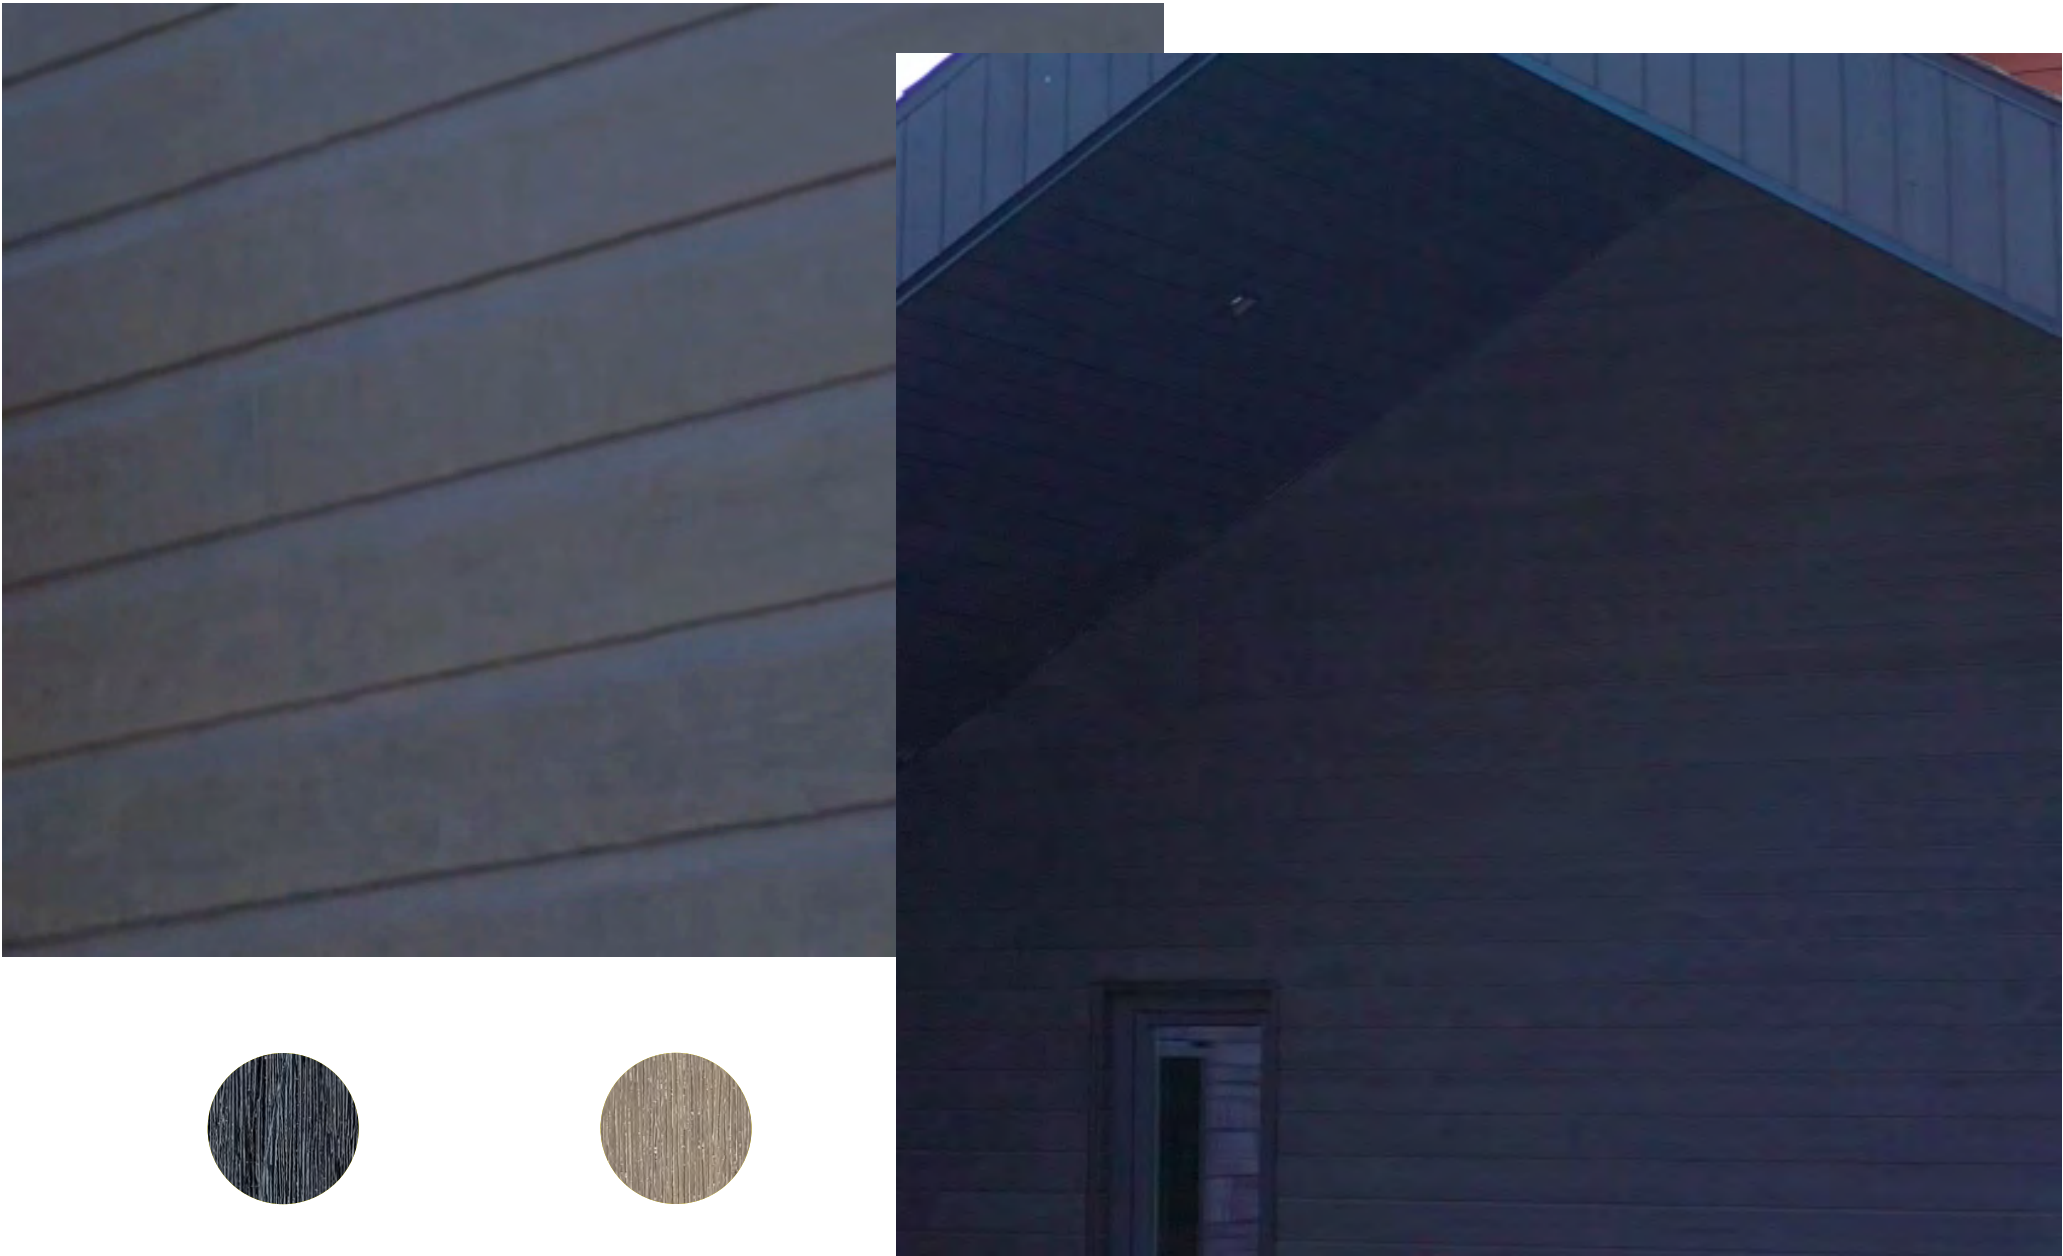

Charcoal

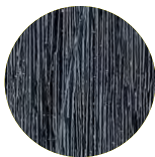

DESIGN - EXTERIOR CLADDING, STANDARD WOOD

CABN's standard wood option is a natural wood cladding that provides an organic and traditional finish to the home. Maibec's natural wood line comes naturally coloured but is easy to paint and repair.

Colours and finish options allow you to customize a CABN in countless different ways.

Light Grey

Charcoal

Red Cedar

Teak

Walnut

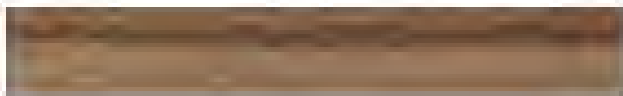

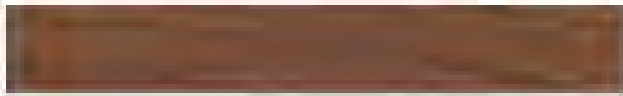

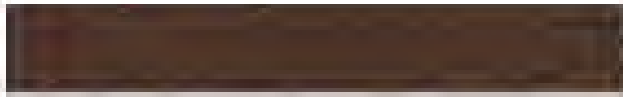

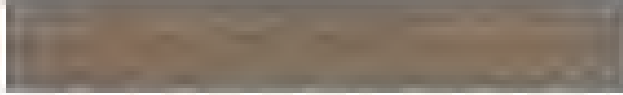

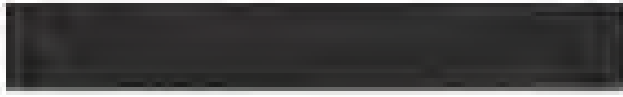

DESIGN - EXTERIOR CLADDING, PREMIUM

For premium cladding, CABN works with Upper Canada-Sierra Forest Group, specifically their Trespa PURA line.

The Trespa PURA line offers substantive benefits:

- Lasting aesthetics for decades
- High impact and scratch resistance
- No painting or varnishing needed
- Rich palette of colours

WOOD DECORS	COLOR CODE	COLOR NAME
	PU02	Classic Oak
	PU14	French Walnut
	PU31	Western Red Cedar
	PU08	Romantic Walnut
	PU30	Tropical Ipe
	PU28	Siberian Larch
	PU24	Mystic Cedar
	PU17	Aged Ash
	PU22	Slate Ebony

FLOORING

FLOORING: A FOUNDATION OF COMFORT AND SUSTAINABILITY

Step inside your CABN and feel the warmth beneath your feet with our carefully chosen flooring options.

We offer a variety of materials, from luxurious hardwoods to eco-friendly bamboo, all designed to bring durability and beauty to your space.

Each flooring choice is not just about aesthetics – it's about creating a base that aligns with your values of sustainability and long-lasting quality.

DESIGN - FLOORING

CABN's partner in flooring is Opus Floors Canada, specifically their Greenflow Series. This 100% natural cork flooring from Portugal has a negative carbon footprint.

The Portuguese Cork Oak Tree forests retain approximately 14 million tons of CO₂ yearly. Not a single tree is cut or damaged during the harvesting.

Flooring features include:

- Indoor Air Quality Enhancement: The surface finish on Opus Green Flow cork floors, prevents trapped dirt, dust, germs and mold, actively contributing to a healthy and hygienic environment.
- Water Resistance: Will not warp or buckle, even in submerged water based on tests according to EN.
- Heavy Density: Greater than 950kgs/m³, which eliminates ripples and waves caused by uneven subfloors.

We've curated a selection for you to review, but the whole line can be found [here](#).

DECKING

DECKING: OUTDOOR BLISS WITH RESPONSIBLE DESIGN

The deck of your CABN seamlessly connects indoor comfort with the wonders of the outdoors.

Our decking materials are chosen to withstand the elements while providing a platform for relaxation and nature immersion.

Whether you dream of a classic timber deck or a low-maintenance composite, rest assured that every option is selected for its durability and eco-friendly characteristics.

DESIGN – DECKING

CABN uses a recycled composite Timbertech deck floor system that has a robust warranty, requires minimal maintenance and offers a beautiful look.

High quality engineering and an array of design choices gives you the freedom to create an outdoor space that will last a lifetime.

TimberTech offers a variety of finishes and colors and their entire product line can be explored [here](#).

TIMBERTECH

- Fade & stain limited warranty
- Moisture resistant
- Easy to clean
- Won't splinter
- Insect resistant
- Up to 85% recycled content

				
STRAIGHT GRAIN A linear grain without knots for a simple, traditional wood look.	HAND-SCRAPED FINISH A highly textured finish, ideal for unique, artisan-inspired wood looks.	CROSSCUT GRAIN Resembles wood that has been cut perpendicular to the grain.	WIRE-BRUSHED FINISH A subtle, textured finish often used for premium hardwoods.	CATHEDRAL GRAIN Varying peaks and swirls across the board surface.

WINDOWS + DOORS

WINDOWS + DOORS: CUTTING EDGE EFFICIENCY, BREATHTAKING VIEWS

The CABN performance requires windows and doors that leverage technology and design to maintain energy efficiency throughout the entirety of the home.

CABN has selected top window provider, Internorm, to ensure the highest quality, focusing on thermal insulation, triple paned glass, and specified glazing profiles.

Moreover, the windows and doors integrated into the CABN design welcome the inside in, through broad expanses of glass and minimal design.

DESIGN: WINDOWS + DOORS

CABN sources windows and doors from Internorm, a European manufacturer with nearly a century of experience, with specialty on high performance windows and doors.

The build quality is unmatched and will ensure a lifetime of energy efficient openings for your home.

CABN has curated a standardized selection, but further customization is available upon consultation with Internorm representatives.
